SEED THE FUTURE

The world lost a football field-sized area of tropical forest every five seconds in 2019, causing the same amount of carbon emissions that 400 million cars would produce over an entire year

At AndThen, we are committed to protecting the planet and preserving its natural beauty for generations to come. That's why we've partnered with TreeTag, a leading organization dedicated to reducing carbon footprints through innovative tree-planting initiatives. Together, we're taking meaningful steps to offset the carbon emissions generated by travel and make a positive impact on the environment. Join us in seeding the future, one tree at a time, and experience the joy of travel while knowing you're part of a larger effort to safeguard our planet. Together, we can create a greener, more sustainable future.
